

1. When students register for one of the above courses, students will see a “Follett DEI Bookstore Charge” on their student account. This will cover the cost of the required course materials to pass that course. Be sure to check your MyNortheast student account to make sure you do not owe a balance. Not all forms of aid cover the “Follett DEI Bookstore Charge.” **TNPromise and TNReconnect do not cover this charge.**

2. Students know how much the cost for their entire course is right at registration.

3. Students are prepared to learn the first day of class with the correct materials.

4. Students who wish to opt out, will have a link emailed to their MyNortheast student email. Students will have from the first day of class until 06/17/2021 to opt out. Students in a Term 2 course will have from 07/12/2021 to 07/26/2021 to opt out.

Look at the Course List below to see if any of the courses you are enrolled in are participating in the Access Program.

HOW DO I ACCESS MY BOOKS AND MATERIALS?

1. Under the “Course Material Needed” column on the Access program list, if it says “eText for.....” you should receive an email to your MyNortheast student email (@stumail.northeaststate.edu) from Bryte-wave with a link to access your digital textbook.

If you do not receive that email, once your course begins: Login to your D2L, Go to your course. At the bottom right, under tools and helpful links, there will be a "Launch Follett Discover" link. After clicking that link, click on your course again. Click the blue "Access" button. This should redirect to Brytewave. Then click the green "Start Reading" button.

2. Any other course material will either be accessed through a link under content in D2L or your instructor will give further instructions for accessing your materials.
